

SENIOR CORROSION ENGINEER/MANAGER VACANCY

Midland Corrosion Services (MCS) is seeking an experienced Senior Corrosion Engineer with some managerial experience to undertake consultancy, failure investigation and to manage MCS.

MCS became part of the Sandberg Group in 2018. It is currently based in Darley Dale, Derbyshire. Depending partially on the successful candidate, the laboratory could remain in Darley Dale or relocate to Sandberg's laboratories in Clapham, London.

MCS is a small business employing 3 staff. It is well known for its corrosion consultancy expertise. Due to the future retirement of the current Manager, we are seeking to find someone to fill this role. The role is a combination of undertaking corrosion consultancy work, failure investigation and managing a small business. Daily activities of the laboratory would be undertaking routine corrosion testing, failure investigation and client liaison. Sandberg as the parent company is of course able to assist with the role, as it also has complimentary skills.

Job Requirements

- Minimum of first degree in metallurgy/materials science or related science
- The candidate will have at least 5 years' experience in corrosion/metallurgical engineering
- Extensive knowledge of corrosion science/engineering (a PhD or MSc in Corrosion Science desirable)
- Laboratory experience in carrying out materials failure investigations and testing
- Ability to write good quality technical reports
- Good verbal communication skills
- Full UK/EU driving licence

Job Specification

- To carry out corrosion and failure investigations on metals and other materials
- To undertake standard and bespoke corrosion testing in the laboratory
- To manage and develop the small MCS business and its team
- To liaise with customers and if required visit clients' sites
- To write technical reports for clients
- Lead workshop practices, directions, procedures and review safety and quality objectives

Employment Conditions and Salary

A competitive salary, incentive bonus and benefits, dependant on qualifications and experience, will be offered to suit both the individual and the business.

About Midland Corrosion Services Ltd.

A small, friendly company founded by the current Managing Director in 2001. The company has established itself as one of the UK's leading corrosion consultancy and testing companies, servicing many industry sectors but mainly in Building Services. With over 200 clients, the company offers potential for the right person to grow the business year on year.
